CROP 1926

## Bodger's Unrivalled Flower Seeds

PETUNIA—GIANTS OF CALIFORNIA

TERMS: F. O. B. California terminal; flower and vegetable seeds, 60 days net or 2 per cent discount for cash within 30 days from date of invoice.

NON-WARRANTY. We exercise the greatest care in growing and harvesting our seeds, roguing our crops under personal supervision, to the best of our ability, true to name, and sending out nothing but what we believe will give satisfaction. It must, however, be expressly understood that we warrant neither growth, description nor productiveness of any seeds we deliver, nor will we hold ourselves responsible for the crop raised from any of the seeds we grow.

If our goods are not accepted on these terms, we should be notified at once.

D. N. Shoemaker

ASTER—CALIFORNIA GIANT—DOUBLE

## NOVELTIES AND IMPROVED STRAINS

**ASTER, CALIFORNIA GIANT DOUBLE**—We take pleasure in recommending this type as the best Aster on the market today. Characterized by the well-known Crego or Ostrich Feather type of flower, combined with the Beauty Aster's long, non-lateral branching stems and sturdy habit of growth, the California Giant Double type of Aster stands at the head of the list, not only for florists' use, but also for private gardens where quality is appreciated. Careful selection has not only perfected this type but has enabled us to extend the color range. The White is exceptionally large and distinctive. Peach Blossom opens as a white and darkens as it ages, so that it covers a large range of colors. Light Blue is an exceptionally fine florists' flower; the color, although delicate, has a sufficient degree of intensity to please the most critical eye. Rose is a very rich deep shade, similar to Aster Beauty Bright Rose. The favored florists' colors are thus fully represented.

We believe the California Giant Double type of Aster will this year take its deserved place as the best Aster for florists' and for general use.

	Per oz.	Per ¼ lb.	Per lb.
White, new, fine.....	2.50	8.00	25.00
Light Purple .....	1.50	4.00	15.00
Deep Rose .....	1.50	4.00	15.00
Dark Purple .....	1.50	4.00	15.00
Mixture of above.....	1.00	3.50	12.00

**ASTER, CALIFORNIA GIANT SINGLE**—We are offering this wonderful Aster for the first time this year. It was developed out of the California Giant Double type. The flowers are large, measuring three to four inches across, with stems 18 to 24 inches in length. The petal has a slight twist, which adds a piquant touch to its beauty. The white blossoms resemble Shasta Daisies in appearance, but their greater length of stem makes them more graceful and better adapted to florists' use. In the garden, Aster California Giant Single adds a charming note of simplicity, among the fuller types of Asters. We believe this new, single type of Aster is destined to become very popular.

At present we are offering it in a well-balanced mixture.

	Per oz.	Per ¼ lb.	Per lb.
Finest Mixed .....	2.50	8.00	25.00

**ASTER, IMPROVED CREGO, CATTLEYA**—Here we offer a distinct and attractive color in the improved Crego type. The flower opens up a beautiful shade of the popular orchid color. We consider this a worthy addition to the 1st and one which will appeal to all flower growers.

	Per oz.	Per ¼ lb.	Per lb.
Cattleya .....	2.50	8.00	25.00

**CALENDULA, BODGER'S GOLDEN FORCING**—This desirable shade of Calendula is an intermediate between Orange King and Lemon Queen. For florists' use it is a much more pleasing shade than Lemon Queen. When forced, it has exceptionally long stems and comes true to color. It will, we think, prove valuable to the florist trade.

	Per ¼ lb.	Per lb.
Bodger's Golden Forcing.....	2.75	8.00

**CARNATION, ENGELMANN'S GOLD MEDAL MIXTURE**—When visiting the Chelsea Show in London, England, in the Spring of 1925, we were especially attracted by the Engelmann collection of Carnations, which was awarded a gold medal and the Sherwood Cup for the most meritorious group. We were fortunate in securing seed from the originator, and this Fall we expect to be able to offer this special strain in limited quantities. Further announcement will be made later, probably about December.

**CARNATION, CHABAUD'S GIANT DOUBLE**—Our plantings this year were so exceptionally fine that we again lay stress on the importance of listing this type of Carnation. By special selection we have greatly increased the size and otherwise improved this strain. In our judgment it is the best Carnation now on the market, produced from seed. We, therefore, highly recommend it.

FIELD VIEW OF ASTERS—CALIFORNIA GIANT

ASTERS—LATE BEAUTY PURPLE

# ASTERS

## LATE BEAUTY TYPE

Plants about 2 to 3 feet high, of branching habit, commencing to bloom in early September and lasting until destroyed by frost. Flowers large, borne on long and stout stems, from 18 to 24 inches. This applies to all of the Beauty Class, making them most desirable for cut flowers.

	Per oz.	Per ¼ lb.	Per lb.

White Beauty, giant white.....	.75	2.50	8.00
Finest Mixed .....	.75	2.50	8.00

## EARLY BEAUTY TYPE

This type has all of the characteristics of the Late Beauty Type, and is valuable for locations where the season is too late to flower the late type before frost, and for early forcing.

We wish to emphasize, however, that this is not an Early Aster as compared with Early Express or Queen of the Market, but earlier than the late Beauty Type which is the latest of all Asters. Planted at the same time this type flowers with the Crego and American Branching.

	Per oz.	Per ¼ lb.	Per lb.

COSMOS, EXTRA EARLY DOUBLE CRESTED

ARCTOTIS GRANDIS (AFRICAN LILAC DAISY)

ZINNIA, DAHLIA FLOWERED ORIOLE

# ZINNIAS

## BODGER'S GOLD MEDAL DAHLIA FLOWERED

In July, 1924, the Royal Horticultural Society of England granted an "Award of Merit" for the strain, and a **Gold Medal** for the group of Dahlia Flowered Zinnias exhibited in the London Show. This official recognition of the strain meant much to its originator, our late president, John Bodger, who had put forth the best efforts of his last years in perfecting this type. In 1925 this novelty was granted two more awards of merit.

The large size, fullness of petals, extraordinary color range, and good keeping qualities of this flower have all contributed to its popularity. It is easily grown, and keeps well when cut. It is at present immune from disease. Equally good as a garden flower and as a florist's specialty, its popularity should increase with years. It has been truthfully called "A NEW FLOWER FOR THE PEOPLE."

### A Florist's Moneymaker

This type is proving a good forcer among the florists. Polar Bear is forced and used extensively as a bunching flower for Mother's Day, while Exquisite, Old Rose, Golden State, Crimson Monarch and Canary Bird are specially recommended to force as desirable colors for florists for early spring trade.

To assist in visualizing the true color, we have inserted, parenthetically, Ridgeway's Color Chart descriptions.

We offer all varieties as follows:

	Per oz.	Per ¼ lb.	Per lb.
	2.00	7.00	25.00

**EXQUISITE**—By far the most pleasing of our collection.

Truly DAHLIA flowered as regards form and size. Color light rose with center a deep rose. (Tyrian Rose.)

**OLD ROSE**—This is adequately described by its name, as it is of the real Old Rose Shade; it is large, and for charm and beauty we consider it ranks next to Exquisite.

**ILLUMINATION**—Similar to Exquisite, but a striking self color of deep rose. (Tyrian Rose.)

**GOLDEN STATE**—A very rich orange yellow (Cadmium). Yellow in the bud, turning to an attractive orange when in full bloom.

**CRIMSON MONARCH**—By far the largest and best of the red shades. Flowers often eight inches in diameter. Plants very vigorous. A marvelous production of extraordinary merit.

**GIANT ATTRACTION**—A distinct shade of brick red (Spectrum Red) which carries its color well from the bud, and forms into an immense ball of color when in full bloom.

**SCARLET FLAME**—A large, beautiful, bright scarlet, with a delightful blending of orange throughout the petal. This is not a bicolor.

**METEOR**—A rich, glowing deep red (Spinel Red) and the darkest of all the red shades. Fine form, with good depth of petal. Very large and more floriferous than other reds.

**LEMON BEAUTY**—This is next to Crimson Monarch in size and form. It may be described as a golden yellow on brown. Decidedly a pastel shade, and should be in every collection.

**ORIOLE**—We consider this the most beautiful of its class. It is an immense orange and gold bicolor, changing slightly as it ages, but at all times worthy of the beautiful bird for which it is named.

**DREAM**—A fine, deep lavender, turning to purple (Mallow Purple) a new, desirable shade in Zinnias.

**PURPLE PRINCE**—A fine, deep purple (Rhodanthe Purple) large and well-formed.

**POLAR BEAR**—A very large pure white, the best white yet seen in Zinnias. True Dahlia form.

**BUTTERCUP**—An immense deep creamy yellow. A very desirable flower, which should be included in every collection.

**CANARY BIRD**—A delicate shade of primrose—very large and holds its color well until out of bloom.

## SPECIAL GOLD MEDAL MIXTURE—

	Per oz.	Per ¼ lb.	Per lb.
A well blended mixture containing all the above novelties. . . . .	1.25	3.00	10.00
<b>ALL COLORS MIXED</b> —While this mixture may not contain such a variety of colors as the Special Mixture, its color range is very good; it has been thoroughly rogued in the field for type and size of flower . . . . .	0.85	2.50	8.00

## PICOTEE TYPE

The Picotee Zinnia, introduced by us in 1919, differs from other types in that each petal is outlined by a contrasting color which harmonizes with the body of the flower. The form and color range are similar to the Giant type, but the size is between the Giant and Pumila types. They are useful to provide variety in that portion of the garden devoted to Zinnias, but they are especially adapted for use as cut flowers. They reproduce about 70% true.

	Per ¼ lb.	Per lb.
<b>Golden Pheasant</b> —Gold ground tipped with maroon . . . . .	3.00	10.00
All colors mixed, including new colors from white to scarlet . . . . .	2.50	8.00

BODGER'S DOUBLE GIANT ZINNIAS

## BODGER'S UNRIVALLED FLOWER SEEDS

### ZINNIAS—Continued

#### GIANT MAMMOTH TYPE

The Giant Mammoth Zinnia has smaller centers and more loosely placed petals than the old Giant type, thus presenting a pleasing appearance. The size of the flower has been notably increased over the Giant Plenissima. The petals are decidedly imbricated and the flower from bud to bloom assumes a succession of graceful forms.

This is the type of Zinnia which we introduced last year. It has proven remarkably satisfactory and we are again recommending it this year.

We have added several new colors this year, which should increase its popularity, especially for florists' use.

## Mammoth Early Branching Nice

This variety is now recognized as the most valuable of all Stocks for cutting purposes and the most popular for general use.

If sown early, they come into flower as early as Dwarf Ten Week varieties; the flowers are larger, and the branching habit renders them invaluable for florists.

	Per oz.	Per ¼ lb.	Per lb.
In Separate Colors	1.25	4.00	12.00
ABUNDANCE, pale crimson rose
